Dr. Colin Irvine Named URGO Research Coordinator

SUBMITTED BY **DIXIE SHAFER, DIRECTOR, URGO, UNDERGRADUATE RESEARCH AND GRADUATE OPPORTUNITY OFFICE**

URGO is pleased to announce that Colin Irvine, Associate Professor of English, will serve as the URGO 2012 Summer Research Coordinator, taking over most of the responsibilities previously performed by Dixie Shafer, URGO Director.

Colin Irvine is a logical and inspired choice on many levels: (1) he boasts an active scholarly record, including publication of a book, several book chapters and numerous journal articles, along with too-many-to-list conference and invited presentations, many with intriguing titles, such as "Teaching like a Mountain: The Aldo Leopold Papers Project" or "Hollywood's Response to Climate Change: Starring Dennis Quaid, Jake Byllenhaal, and Al Gore," and more with conventional titles, such as "Wallace Stegner's Novelization of the American West and Western" or "Problems with Peer Review and What These Indicate About the Status of the Workshop and How Well These Work in College Composition Courses;" (2) he has a distinguished record of successfully mentoring whole groups of students in the classroom through the research process, via his Aldo Leopold Project, and with "The Honors Review," (3) he has successfully shepherded several URGO summer researchers who have gone on to top-tier graduate programs and won Fulbright awards, (4) through scholarship and practice, Colin has exhibited a zest, verging on zaniness for building strong learning communities, an important goal for the URGO summer research program; (5) he was awarded a Fulbright Roving Scholar award to Norway last year, making him a role model for students considering national fellowship competitions, and perhaps most notably, (6) he won the MN Father of the Year Award, suggesting that he has solid (or at least unique) parenting skills which he can employ as needed when mentoring a summer research cohort.

Please send congratulations his way and any suggestions you have for making URGO summer research even stronger.
