Memorial Hall Window Air Conditioner Installation

SUBMITTED BY THERESA M ADAMS, OFFICE SYSTEMS MANAGER, FACILITIES MANAGEMENT

Beginning Tuesday, May 7, the facilities department staff will begin installing air conditioners in Memorial Hall windows. If you had an air conditioner installed last summer, the same unit should be going into your office this year. Please make sure that the area around the window where the air conditioner is to be installed is clear of all items to make the installation process go smoothly. Also, if you did not have an air conditioner last summer and have the need for one this year, please submit an online facilities request. Thanks for your help with this and please contact Terri at adamsth@augsborg.edu or x1566 with any questions.
