Teaching and Learning

Academic Research Grants Available

SUBMITTED BY **ANNA ELISABETH ROMSKOG, STUDENT**

Each fall URGO offers \$1,000 research grants for students who wish to gain research experience with an Augsburg faculty member. These grants require 100 hours of research over the course of the academic year and are a great way to ease into research or to continue work on an existing project. These grants go quickly, so apply SOON!

Applications for Academic-Year Research Grants are accepted on a rolling basis. To apply, complete the electronic application at <http://www.augsburg.edu/urgo/research/on-campus-research/>. Mentor approval for projects is shown by emailing the application and report form to urgo@augsb.org.

AugSTEM Chemistry Seminar

SUBMITTED BY **MEREDITH GILLIES, PROGRAM ASSOCIATE, STEM PROGRAMS**

"Building a Career vs. Fitting Into One: An Eclectic Journey Through Science, Engineering, Art and Medicine"

Who: Dr. Christopher Scorzelli
When: September 19, 3:30-5:30 p.m.
Where: OGC 100

Christopher Scorzelli, MD. is the Chief Medical Officer at Kabloo Design, where he works to invent new medical devices and support client projects in the MedTech space. Dr. Scorzelli is also currently serving as Interim Executive Director of Magic Arms for the World, a nonprofit organization working to serve children with rare neuromuscular diseases. Dr. Scorzelli is a physician by training, a self taught engineer, and an artist at heart. He has over 19 years of experience in everything from molecular biology to hospice to fine art.

This event is FREE and open to the public! Please RSVP at <http://bit.ly/1qF5TAO>

Webinar | Intercultural Competence & Global Learning

SUBMITTED BY **LEAH SPINOSA DE VEGA, DIRECTOR, AUGSBURG ABROAD, INTERNATIONAL PROGRAMS**

The Office of International Programs, The Center for Teaching and Learning, and General Education invite you to attend the following Webinar:

Intercultural Competence and Student Development:
Working Toward a Fuller Picture of Global Learning

A NAFSA ACADEMIC PROGRAMS FACULTY CONVERSATION

Date & Time: September 24, 2014, 1:00 p.m. - 2:30 p.m. (CDT)
Refreshments Served

Kick off the new academic year with this stimulating conversation that taps into NAFSA's growing community of practice focused on global learning.

Several instruments are designed to help locate college students on intercultural scales and measure changes in their perspectives over time. What does the data from these techniques reveal - and not - about students and their intercultural competence?

A distinguished panel will present an overview of these instruments and the data each provides. Participants will then join in the conversation to explore:

how students develop in ways that we are now learning to measure;
analyses and questions we need to illuminate such change;
pedagogies and learning experiences we can imagine to better align theory and practice
Faculty Conversations are designed for faculty members, researchers, and international educators interested in student learning outcomes and the educational experiences--curricular and co-curricular--created to help students gain and practice global knowledge, skills, and perspectives.

PRESENTERS

Kenneth Cushner, EdD
Professor, College of Education, Health, and Human Services, Kent State University

Helen Marx, PhD
Assistant Professor, Department of Elementary Education, Southern Connecticut State University

Craig N. Shealy, PhD
Professor, Department of Graduate Psychology, James Madison University

MODERATOR

Chris R. Glass, PhD
Assistant Professor, Higher Education Program, Old Dominion University
