Get paid to conduct research with some of the nation's top academics at universities, labs, or institutes through an off-campus summer research program. There are programs designed for students in the sciences, social sciences, and humanities, and they often include a research stipend and housing. Such programs are a great way to enhance your education, meet new people, and explore a new city!

URGO will be hosting a workshop January 17 where students will receive one on one advising and feedback on their applications. Also hear from students who have participated in off-campus summer research and have experienced the application process. Those planning to attend the workshop are encouraged to send their application essays to urgo@augsborg.edu before Saturday to make the most of the time.

If you cannot make it to the workshop, please contact URGO at 612-330-1446 or urgo@augsborg.edu to make an individual appointment.
