

9:30-10:45, SVE 204, Getting the Most Out of the Moodle Assignment

The Moodle Assignment activity can streamline the process of collecting and evaluating student work regardless of whether it is submitted online, completed or handed in during class or presented orally. This workshop is designed to introduce some of the newer features of the Assignment as well as highlight aspects (like advanced grading features) you may be unfamiliar with.

11:00-12:15, SVE 204, Moodle Gradebook Basics

Whether you have never used the Moodle gradebook and want to learn the basics OR have been using the gradebook but would like us to do a “pre-semester check-up” this is the workshop for you. The E-Learning team will be on hand to offer some basic gradebook tips as well as individual help with making sure your gradebook correlates to your syllabus.
