HOIDALE FOR CONGRESS

The Republican party promised to pass tariff laws which would give us better times and better conditions in the Northwest. The law now proposed by that party and passed by a large majority has increased our burdens instead of making them lighter.

The fact that the promises made to us have been broken is not denied

Why should we support the candidate of a party that has failed us in our hour of need? Farm products are lower than they have been in many years. Heavier tariff taxes have been placed upon us than we have ever had before. Our dollar will buy less than at any normal time in the past.

The only way to protest against this wrong and injustice is to vote against the party that is responsible for what has been done.

The eyes of the nation are on this Congressional fight. The election of Hoidale will be accepted through the country as a Vote of Protest and will have a tremendous effect in influencing legislation favorable to the Northwest.

A vote for Einar Hoidale is a Vote for same. MONDAY, JUNE 17th.
